Minister for Industries,
Fort St. George, Madras.

SECRETARY TO GOVERNMENT
18 SEP 1950
DEPARTMENT

Dear Sir,

Sub: Iron and Steal - Control and distribution- allotment of iron materials to Sri. K. Hanumanthappa for construction of godown in Ward No. 10, Mundlur Narasimappa St., Bellary -

Ref: (1) My application dated 8-8-1949; 15-8-1949. 15-11-49, 19-11-49, 20-11-49, 10-12-49, 17-12-49, 28-12-49, 18-1-50, 6-2-50, 21-2-50, 1-3-50, and 20-4-50, 9-8-50, and 17-8-50.

(2) Your No. 9/ISC/F/50 dated 9-6-1950.

In my application dated 8th August 1949 submitted through the Revenue Departmental authorities supported by duly certified copies of plans and estimates, I requested you to allot for me at a very early date, iron and steel materials specified therein for the construction of a godown in Ward No.10 of Mundalur Narasimappa Street of Bellary Municipality. As stated therein, the godown is absolutely essential for storing the merchandise of for which there is no alternate accommodation.

After repeated correspondence and on many personal interviews, you were pleased to allot about five Cwts. of zinc sheets and 4 Cwts. of anglers in permit No. 55995 and 81864 respectively. Though these quantities hardly sufficed not of the anglers of the required specifications, yet I purchased them hoping to some how meet the requirements to the extent available. Subsequent to that various permits of the following Nos. allotted to me were forced to be returned to your office for the simple reason that the quantity allotted in

those permits were so small that they would never meet the requirements of mine.

Permit Nos.55961 )
55996 )
55997 ) Returned on 30-11-1949.
55998 )

I may add that I was forced to return the permits which you have so graciously pleased to allot me for the reason that in the place of large quantities required the small quantities would no were meet the purpose. I therein asked you to allot the quantity asked for in lump.

You have recently allotted a permit No.B/472/F4/50 dated 20-7-1950 for 5 Cwts. of zinc sheet and linked me to a merchan in Harpanahalli. On my approaching the Harpanahalli merchant, he refused to deliver the material on the ground that his stocks are required by him for his personal use and that the matter is under correspondence with you. I was therefore again forced to return the said permit also to you in my letter dated 9th August 1950.

It will thus be seen that I am put to unnecessary inconvenience and avoidable expenditure not to speak of the annoyance and consequent loss of business by the unsympathetic attitude taken by your office. I have repeatedly reported to you that large stocks of the materials are available with the merchants in Bellary, Anantapur, Adoni or Guntakao. I therefore request you to allot me the materials required for the said places or even with any merchant in Madras.

I have been repeatedly coming over to Madras and making personal representations in the matter to you, thereby incurring heavy avoidable expenditure. But to my misfortune, the required quantity was not allotted to me.

Sir, it is needless to narrate again the difficulties and consequant hardship, loss of business, etc. for want of the godown now construction.

The

The construction is now at a standstill for want of the said materials. No substitutes can be used in the place of materials asked for. I therefore most humbly request you once again, to allot me in lump the following materials and link me with any merchant in Bellary, Adoni, Guntakl Anantapur or even in Madras at a very early date.

Quantity of materials required.

| | |
|---|---|
| Iron rod 1/2" or 5/8" about | 10 Cwts. |
| Angles 2-2-2, -2," | 65 Cwts. |
| Zinc sheets. (corrugated) | 130 sheets. |
| -do- plain. | 40 " |
| Iron flats thickness " and width 2" or 2½") | 2 tons. |

The quantity asked for and repeated above is the absolute minimum. Even your Inspector has inspected but no allotment has been made xx so far. Further, the rainy season is fast approaching and if the construction is not completed sooner, I am afraid to lose heavily. Further I submitted one application personally on 18-8-50 and made personaly representation some three times before various officers such as Director of Controlled Commodities. Steel Officer, And Assistant Steel Officer, Madras. All these officers were kind enough to promise me to send the quota required by last week of September but till now no quota is allotted to me. I have been making representations since more than a year but whereas some people who have recently applied got their quotas supplied. Therefore I request you to kindly make enquiry into the matter and order early disposal in the matter

An early allotment of the above materials is therefore earnestly solicited.

Thanking you,

Yours faithfully,

J. Govindaraj
